

MSS OptiCoin 10 - COIN DEPOSIT SYSTEM

Because of their insensitivity against soiling and foreign objects the MSS products guarantee a maximum availability. The unique modularity of the Multi Cash products is even being enhanced by the MC OptiCoin 10 model. This machine offers even more options and targets to a broad field of applications.

With touch TFT

Operation - clear and easy

- Text based operation with two buttons and a 4-line display or graphic based operation through touch TFT
- Automatic start and level control
- Stop-function for individual filling of coin bin(s)
